Kapitel 4: Please Don't Knocking on Heavens Door

hey my friend
put your guns away
you never needed
can't you see the darkness
the past teach it

do you really wanna knock
don't knock
oh knock knock knocking
knocking on heavens door

close your eyes my friend
i still stand on your site
feel the peace
can you see the light
of a better future

do you really wanna knock
don't knock
oh knock knock knocking
knocking on heavens door

hey my friend
put your guns away
you never needed
can't you see the darkness
the past teach it

do you really wanna knock
don't knock
oh knock knock knocking
knocking on heavens door

do you really wanna knock

don't knock
oh knock knock knocking
knocking on heavens door
