Kapitel 9: When he doesn't like you :(

TOP:

A friend of yours invited you to a dinner with her and her friend, who was the famous TOP of Big Bang. When she went to the toilet and left you two alone, silence was in the room. After some minutes you tried to start a conversation. "So you two know each other from school." You said but he just lifted his head, glared scary at you and looked back on the table. What was that? You did a new try. But every time you tried to talk with him or asked him something, he just ignored you. Seems like you are not even worth a word for him... :(

G-Dragon:

You waited in front of the restaurant with G Dragon for your boyfriend. It seemed like your BF wanted to give you both an opinion to get to know each other because you both were really important to him. Suddenly GD looked at you. "Listen! I will be directly. I don't like you. Just because my best friend is your boyfriend, I try to be nice to you. But just to let you know. I really don't like you and I hope you two will break up again soon." Ouch. That hurt.

Daesung:

You felt that he disliked you so you asked him about it. "Well. It's true that I don't like you. Why? Last time I saw you and you acted like I don't like it if girls act like that. Maybe we can get along someday, but right now I don't wanna get close to you." Don't worry. Maybe someday you two can be friends.

Taeyang:

You're a big group eating at Se7ens yeolbong restaurant in gangnam. Because Taeyang didn't like you right from the beginning, he made up an excuse and left. You didn't even had the chance to change his mind.

Seungri:

"Do you act like that because of last time?" You are talking about the time when he asked you out but you told him that he was not your type. Since then he acted strange. "No it's not because of that. I just don't like you." "You don't like me because of last time?" "I told you it's not so." "Are you sure?" "Yeah! I just don't like you!" "Well..." I'm sure he just don't likes you because you dumped him.
